Thanks Mike for your quick review. We intend to send a draft to Utah on Thursday in preparation for a January 28<sup>th</sup> meeting in SLC about developing an EI for the Uinta Basin. Yes, please talk to Mark about the questions and a different map.

Hi Monica –

I took a quick look at this, and have some preliminary thoughts. I'll also be running this by Kim in case she has any suggestions as to the Indian country language. I think the short answer to your question is pretty much "yes," but I have some more specific suggestions in the attached, as well as a question or two. Also, I recommend we not use the map that's included in the draft. Should I talk to Mark about the questions?

---

Mike – this looks like it'd fall to you, as you're currently the contact for the U&O air issues. And you're up to speed on Indian law issues. If yes, could you let Monica know you'll field this? If no, just let me know, and I'll reassign.
